3. The negative growth of (-) 49.0% in the General Index for the month of December, 2018 which stood at 86.7 as against 170.0 in December, 2017 is due to the sharp fall in power generation from 77 MU in December 2017 to 36 MU in December 2018 as power generation in Manipur is mainly through hydro power plants.
